

The Face is the Window to the World

The Association of Facial Plastic Surgeons is a none profit making organisation, established by a group of Maxillofacial Surgeons interested in developing a forum for the training and education of accredited surgeons from a variety of surgical disciplines whose main interest is facial and plastic reconstructive surgery including cosmetic facial surgery.

There are no regulations covering the training of cosmetic surgeons but the Royal College of Surgeons advises that qualified specialists should be registered on the General Medical Council's Specialist list.

The founding aim of this association is to support and encourage best practice in facial surgery. The Association of Facial Plastic Surgeons seeks to inform and educate the public on the treatments available for the management of facial cosmetic conditions and reconstruction of facial deformities.

We have participated and represented our Association of Facial Plastic Surgeons in the following:

- Workshop: Where facial plastic ends and where facial aesthetic begin, American Association of Oral and Maxillofacial Surgeon (AAOMS), San Diego USA October 2006
- AFPS - Inaugural Meeting, Manchester
- Aesthetic Blepharoplasty, Poole Dorset UK October 2007
- 19th International Conference on Oral and Maxillofacial Surgery (IAOMFS), Shanghai/China May 2009
- BAOMS Master Class: Aesthetic Blepharoplasty, Bournemouth Dorset UK June 2009
- Face Lift Symposium, Poole Dorset UK October 2009
- EACMFS Skopje Macedonia November 2009
- Joint Meeting with the BAOMS and AOMSI, Kochi, Kerala State South India, November 2009
- The British Association Of Oral and maxillofacial Surgeons, Manchester June 2010
